

Dear FCC, Let's get "American" and live up to our ideals of democracy by expecting journalist to print, and air the facts, which should be truth. I object to any smear airing of either candidate. There is a documentary about Regan that has not been shown on national TV because it states some true and unpleasant facts about the first President Bush. Smearing with untruths is the work of un-American trash mentality. I object to trailer trash mentality as fair, truthful and objective journalism. Please support democracy and truth on our airwaves.
Sincerely, Linda Kelly
